What type of audience is being targeted with this site?
The targeted audience will be for any person remotely interested in organic foods and products and how they were derived. This website will be for appropriate and user friendly for any audience.

What content (critical, complimentary, and supplementary) is needed in this site?
The content on the site will include information critical to understanding what organics foods are and how they derived and include information for methods of using them. The complimentary information will be the use of the recipes and lists of products available for a day of organics. The supplementary information will be contact information and links to other student’s sites.

How will you make your Web site design effective (loads quickly, attractive, stickiness)?
I will make my design effective by keeping things simple, professional and consistent throughout the site. I plan to keep everything organized so that I will not have trouble with uploading pages or images not showing up.

What color, graphics, and text work best to attract unique visits and retain repeat visits?
The colors I have chosen represent a brand from HEB Central Market which produces and sells several of the organic products. I will use green text in the beige/tan background to ensure consumers are able to represent such products. I think the Broadway font attracts people and is bold and inviting so it will retain visitors to my site.

What type of computer technologies will be needed to complete this project?
I will use notepad to construct and build my website. I will also backup all of my work from this point on to my H drive. I also will use Adobe Photoshop to alter any images and use various search engines for tips on building my site and finding various images.

What types of interaction/communication formats are necessary for the site to be successful?
I will have a link providing my email on each page and also a contact information link so that I can get feedback to develop my site into something greater. I will answer any questions that I am summoned with and acknowledge any suggestions I may get.
This will be an explanation and welcome to the site that I will create when working on website.
